A Message from of the office

As a LSEN school (Learners with special Education needs) we are a school who can make a difference in the lives of our learners!

Our vocational orientated curriculum offers the best pathway for our learners to achieve the necessary skills to equip them for a future career.

The vocational training for learners who experience barriers to learning breaks down low self-esteem and poor self-concept and builds a motivated young learner. Our learners are then more practically orientated.

To conclude "every learner deserves to have at least one person who is absolutely crazy about them"

Dr Martin Brokenleg

At Jim van Tonder School "there is no time for moaners and groaners

because we are movers and shakers"

Mr J.J.S. du Plessis
